

Easy Does It!

Do you and your family need life insurance protection, but hate the time and effort it takes to apply? Answering pages of questions, having blood drawn, or even going through a full medical exam – then having to wait two months or more for your doctor to send your medical records to the insurance company? If you’re looking for an easy way to get the coverage you need, then we have great news for you!

Our agency now offers the Harleysville *Simplified Issue Term* plan, a new term life insurance plan with NO medical exam required, NO blood or urinalysis required, NO doctor’s records required, and a brief one-page application! With this new product you can quickly obtain up to \$95,000 of valuable term life insurance protection. You can even select a coverage timeframe that best fits your needs: 10-year, 15-year, 20-year, or even a 30-year period! The minimum issue age is 18 and on the other end, folks up to age 65 can still purchase a 10-year or 15-year policy! And note that *Simplified Issue Term* offers full death benefit protection from Day One; it’s not a “graded death benefit” policy like so many that are offered on television that say in the fine print that you’ll only get your money back plus some interest if you die within the first two years.
